EXECUTIVE SUMMARY

AI analysis of project requirements and structure.

PROJECT OVERVIEW

Project Title: Security Company Website (WordPress)
Project ID: 6970d83c17ad75a33b33eaea
AI Analysis Date: 2026-01-26
Analysis Confidence: 85%
Complexity Level: Medium

AI RECOMMENDATIONS

1. Optimize Architecture

Consider implementing microservices architecture for better scalability.

2. Security Enhancement

Add additional security layers for user authentication.

RISK ASSESSMENT

- **Potential performance bottlenecks in database queries [Medium Risk]**
  Mitigation: Implement query optimization and indexing

TECHNICAL REQUIREMENTS

The project requires modern web technologies including Node.js, React, and MongoDB.
